

Ten Oaks

Character Collection

Prefinished Character Collection

Stain Selections

Our prefinished collection is finished with four top coats and a protective barrier. You do not need to sand or finish our prefinished flooring.

Available with our **Six Side Seal:**

Protect your investment with our patented moisture barrier that completely wraps each piece of flooring. Reduce the likelihood of warping, cupping, and cracking due to seasonal moisture changes. Minimize and isolate damages to your floor from accidental under-floor water leaks. Enhance the color and character inspection of each piece of flooring before laying the wood in your home.
